

94050 Nigrosin, water soluble

Chemical composition:	Sulfonated phenazine – Dye
Color:	neutral black
Color Index:	Acid Black 2, tinted with acid colorants C.I. 50420
Coloring strength tolerance:	95.0 – 105.0 %
pH-Value: (ISO 787, Part 9)	9.0 – 11.0 (10 % in water)
Salt content:	approx. 15 %
Dusting value:	max. 0.5 %
Lightfastness: (DIN 54004)	4 -5 (on maple inlay using a concentration of 30 g dye/ liter water)
Solubility:	min. 50 g/l water (25°C)

Main Fields of Application:

- Wood staining
- Articles for office supply
- Cleaning products
