

36100 Logwood, Lignum campeche

Logwood, Lignum campeche, cut

Botanical Origin: Haematoxylon campechianum L.

Product Properties:

Appearance: dark red
Odour: typical
Taste: typical

Processing:

Cleaning: conventionally
Drying: conventionally

Disinfecting Method: CO₂ yes

Genetical Mutation: no

Radioactive Contamination: no

Storage Conditions:

Storage period: 24 months
Temperature: 15 – 18°C
Light conditions: dark
Humidity: 10 – 20 %
